# THE KENTUCKY KERNEL

UNIVERSITY OF KENTUCKY

LEXINGTON, KENTUCKY, FRIDAY, JANUARY 23, 1948

Snow's Gettin' Deep  
Shoes Will Be Worn

NUMBER 13

## Ag Convention Will Meet Here January 27-30

Featured speakers at the general sessions of the Farm and Home Convention to be held here January 27-30, will be Dr. Karl D. Butler of the American Institute of Cooperation, Washington, President H. L. Donovan; and Dean Thomas P. Cooper, of the College of Agriculture and Home Economics.

Dr. Butler will address delegates at the first general session, to be held at 11 a.m., Tuesday on "Co-operatives Look Ahead." President Donovan will address the Wednesday session. His subject will be "About Kentucky—Information Please." Dean Cooper's address, scheduled for the Thursday session, will be "Opportunity Ahead."

Alfred Paulus, of Westinghouse Electric Corporation, will address the women's section Tuesday morning on "New Horizons in Lighting." Tuesday's feature will be "Can You Be Happy in a Confused World?", an address by Mrs. Lucella Canterbury, of Chicago. She will speak to the delegates on Thursday, on "Outwitting Fear."

Women delegates to the convention will hear a first-hand account of the meeting of the Associated Country Women of the World, held in Holland last September. Twelve delegates and Miss Myrtle Weldon, state leader of home demonstration work, will discuss various phases of their trip.

One of the sectional meetings at the convention will deal entirely with tobacco production. Speakers will discuss control of tobacco diseases, fertilizing tobacco, the growing of new and improved varieties, pruning, and curing. This meeting will be held in the livestock pavilion arena at 9:30 a.m. Friday.

Building run-down land into paying farms will be one of the subjects discussed at the farm management section of the meet. Included will be interviews with farmers who have combined soil improvement and livestock raising to improve farms. Speakers at the agronomy section will discuss making high crop yields, the growing of grasses, control of plant diseases, fertilizer uses, and weed control.

The national save-grain program will have a part in the convention's bandy programs. Discussions on raising livestock on better pastures, feeding hay and silage, fly control, improving late lambs, and production of more pork on less feed will be included.

Owners of chicken and turkey flocks will discuss problems of breeding, feeding, and disease control, and the outlook for the year. Artificial breeding, control of diseases, selection of sires, and other herd management problems will be considered at the dairy section.

Other special sessions will be devoted to farm engineering and fruit growing. Schools, roads, churches, and trade centers will be discussed at a sectional meeting on the rural community and church on Friday. Speakers will include Dr. Kendall Weisiger, Atlanta; Dr. Morton Hanna, Louisville; Emory Rogers, Mayville; Ivan Jett, Georgetown; a number of country church pastors; and members of the faculty of the University. The Kentucky Rural Church Fellowship will meet at the close of the conference.

Meals for the convention delegates will be served at the pavilion and in the agriculture and home economics building. Men will be served by members of the University Home Economics club. Members of Phi Upsilon Omicron, home economics honorary, will serve the women. Nearly one thousand people will be served each day.

For more information on the Farm and Home Convention, see the picture on page 4.

## Pledges Raid Dormitories

"We'll give 'em a paddling that'll be worse than anything their fraternity ever thought of," explained a men's dormitory resident, slightly disturbed by souvenir-hunting frat pledges Saturday night.

"Signs and various utensils" were removed from the dorms by raiding pledges in a burst of pre-war-type campus activity, and dorm men were reported to be more than a little peeved.

Questioned about the incident, Dean A. D. Kirwan said: "All initiation programs are to take place away from the residence halls, and there is to be no looting at all. All fraternities have been so instructed."

Stating that a report of the incident would serve no useful purpose, the Dean smiled slightly as he added that it might encourage pilfering of more objects—such as the cannon in front of the Administration building.

## Y Meeting Cancelled

Because of the Religious Emphasis Week program at Memorial Hall, the YMCA and YWCA will not meet Tuesday night, Carolyn Spicer, YWCA executive secretary, has announced.

## Campus Needs Parking Space Kirwan Says

2000 Cars Won't  
Go In 512 Places

By Haskell Short  
What's the solution to the parking problem here on the campus? That's what everyone who drives an especially a faculty-student committee headed by Dean A. D. Kirwan would like to know.

And they say the problem isn't an easy one to solve. Their problem, in a few words, is how to fit some 2000 cars into 512 parking places. Isn't easy.

No Answer  
"Nobody has found the answer," says Dean of Men Kirwan who has the unhappy task of deciding who can park and who gets a buck fine if he does.

"I certainly would like to talk to any person who knows the answer," Dean Kirwan says. He explains he inherited the present system and he and just about everyone else admits it's outdated and isn't the answer now that the campus has about twice as many automobiles as ever before.

Headaches  
As Dr. Kirwan sees it, parking is the big problem everywhere and no city or university has yet solved the question. Where there are automobiles, there are headaches, he points out.

"Not cities and universities were laid out before the automobile age and at that time little if any thought was given to automobile parking lots, so we inherited a problem," Dean Kirwan explains.

"Take our campus here. We have only 512 parking spaces on the central campus. There are unregulated parking spaces by Jewell Hall, behind the College of Education, and on the Experiment Station farm, but the situation is such that it is likely those areas will soon require a permit."

Two Problems  
"Now with all these automobiles and lack of space, what are we going to do? It's a question that demands an answer, but what's the answer?" Dean Kirwan says the situation presents two problems. One is the long parking problem and the other is the immediate problem.

Turning to the immediate problem, he says it has always been the policy to issue parking permits to all the faculty and staff and he has issued 349 of the 512 parking permits to this group.

Policy Questioned  
"But," he says, "this policy is open to question. For instance, it would work a hardship on many of the faculty not to be allowed to park on the campus, but how about the younger members who don't live far away? Where are we going to draw the line?"

After issuing permits to the faculty and staff, 163 permits were left for the students.

To students who commute and to (Continued on Page Three)

## Beauty Queen Contest Date Set For Feb. 5

The 1948 Kentuckian Beauty Queen contest will be held at 7:15 p.m. Thursday, Feb. 5, in the ballroom of the SUB, according to Amy Price, Kentuckian business manager. The event will be closed to the public and the judges names will not be revealed until the night of the contest. Sororities are allowed two contestants each, dormitories one, and independents four.

The candidates who have been chosen thus far are as follows: Helen Bowman, Jewell Hall; Betty Martin, Boyd Hall; Fawn Gray, Patterson Hall; Nelly Payne and Priscilla McVey, Delta Delta Delta; Mary Frances Hagan and Sue Allen, Kappa Kappa Gamma; Jackie Carper and Rebecca Perry, Alpha Delta Pi; Mary Alice Mayer and Sally Branch, Kappa Alpha Theta; Mary Alice Schisler and Alva McElherry, Kappa Delta; Anita Levy and Frances Goldstein, Tau Alpha Pi; Evelyn Ewing and Sandra Steele, Alpha Gamma Delta.

Identity of the Queen will remain a secret until she is presented at the annual Beauty Queen dance.

## Campus Sing Planned For February 6

The annual All-Campus Sing will be held Friday night, February 6th, in Memorial Hall, Jack Fleherabend, chairman of the Campus Sing committee announced.

The Campus Sing, sponsored by Phi Mu Alpha, Phi Beta, Omicron Delta Kappa, and Mortar Board, was won last year by Kappa Alpha Theta and Delta Tau Delta. Again this year it is open to all campus organizations.

All organizations are urged to participate in the Campus Sing. Application blanks may be obtained at the music department.

The deadline for applications, which may be obtained in the Music Department, is Monday noon.

Appearance will not count in the preliminaries, but both appearance and music will count in the finals.

## Vet Sighs For 'Plushy' Life As Lived In Jewell Annex

By Stanley J. Schill  
Ah, for the life of a lady veteran! Living in those women's barracks must be paradise—at least in comparison to the way the men exist.

Notice sometime, the way an ex-GI's eyes light up when he passes Jewell Annex. That, to him, is living in style.

Rugs  
Just think, fellows—rugs on the floors, two chests of drawers for each room, instead of just the one you have to share with your roommate if you live in either the Rose Street Barracks or the Stadium Barracks, or those behind University High School.

The women even have automatic kerosene stoves instead of those coal burning, dust distributing monstrosities in the Rose Street residence hall.

If you think that's something, think of a lamp in each room, and fully furnished reception rooms, living rooms, and study rooms in each building.

Wonderful  
All this and board too, for \$130 a quarter. Isn't it wonderful?

Why it takes at least \$125 a quarter for meals alone, provided you don't spend more than \$1.50 a day, and I can't think of any better way to lose weight.

But after all, what you have isn't so bad either. Instead of a foot locker, now you've got a whole half a chest.

And you have only one roommate now instead of squad-room days. The coal dust isn't too bad, if you don't breathe, and what have twin beds got on a couple of surplus army sacks?

All this for only \$33 a quarter plus board. Just like every GI used to dream of.

## Algebra Help Section Started This Quarter

A help section for students in algebra sections 5a and 5b was started this quarter to help students having difficulty with freshman algebra.

Dr. Harold H. Downing, head of the Mathematics Department, announced.

The extra class meets on Monday, Wednesday, and Friday, in Room 103 of McVey hall, at 3 o'clock.

This is the first time in a number of years that such a help section has been held. Dr. Downing said, and will be extended to other mathematics subjects next quarter if successful.

## Seniors, Graduates Must File By Jan. 31

Seniors and graduate students planning to be graduated at the end of either the Winter, Spring, or Summer quarters are requested to make application for degrees, if they have not previously done so, by Jan. 31 in Room 16 of the Administration Building, the Registrar's office has announced.

Applications must be filed on time to complete commencement lists, the announcement added.

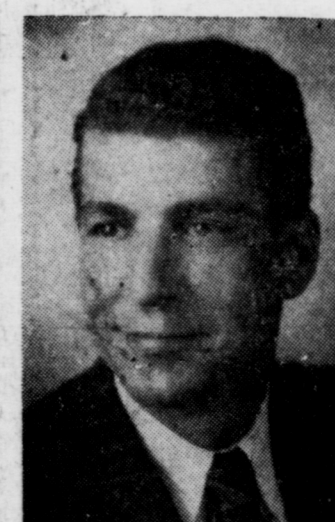

Candidates for the bachelor's degree will be charged a graduation fee of \$9.00. This will cover the rental of cap and gown, diploma fees, the Kentuckian, and senior dues.

Candidates for advanced degrees will be charged a fee of \$15.00, which will cover all except the Kentuckian.

Graduation fees are payable not later than the fourth day preceding the commencement.

Among the leaders to visit the University campus for religious emphasis week are shown above, Dr. Karl D. Butler, pastor of St. John's Baptist Church, Charlotte, N.C., and Charles M. Jones, pastor of the Presbyterian Church at the University of North Carolina. Below are shown Gabriel Nahas, representative of the United Reformed Church of France (Calvinist), and Mrs. Warren Hastings, Disciples of Christ teacher and advisor.

## Religious Emphasis To Begin Tomorrow

A meeting of the Committee of 100 with the visiting religious leaders in the Student Union building tomorrow will begin the University's annual Religious Emphasis Week program which continues through January 30.

Designed to stimulate student interest in religion, the inter-denominational program of emphasis on faith is being sponsored by the Interfaith Council in cooperation with the University Christian Mission of the Federal Council of Churches (Protestant), Covington Diocese (Catholic), Jewish Chataqua (Jewish), and the Christian Science Committee (Christian Science).

Larry Fleisher, president of Interfaith Council, has announced that the program for the coming week will feature forums, seminars, personal conferences and classroom studies conducted by ten religious leaders of the several faiths.

Wendell Poundstone, in charge of the program, called particular attention to the Fundamentals Series, which are one-hour meetings to be held at 5:00 p.m. Monday through Thursday in the Music Room of the Student Union. Representatives of the different faiths will explain the source and meaning of their beliefs. Open to the public, these sessions will attempt to clarify the significance of the various doctrines in the world of religion.

Will be "The Challenge of Religion," Poundstone said. Keynote question to be emphasized will be: "Is religion only something for Sunday?"

Executive Committee chairman Ann Odom stated that the program has been designed to "help students develop a workable, personal, religious philosophy of living."

Seminars will be conducted at 4:00 p.m. daily, Monday through Thursday. Students will discuss problems ranging from the subject of one world to courtship.

Sponsors of the week have arranged to hold open public meetings each evening, Sunday through Thursday, at which nationally known leaders of all faiths will be the principal speakers.

Opening the series will be Dr. Herriek B. Young, executive secretary of the Presbyterian Board of Foreign Missions. His talk at 7:30 p.m., Sunday, in Memorial Hall, will be entitled, "The Christian Challenge to World Confusion."

Speakers on this series will be

The Most Reverend William T. Mulloy, bishop of the Covington Diocese of the Catholic Church; Rev. Charles M. Jones, pastor of the Presbyterian Church at the University of North Carolina; Kendall Weisiger, a member of the Episcopal Church; and Mrs. Warren Hastings, Disciples of Christ teacher and advisor.

Other speakers include: Dr. James L. Stoner, director of the University Christian Mission for the Federal Council of Churches; Selwyn D. Ruslander, Rabbi of Temple Israel, Dayton, Ohio; Claud Broach, minister of St. John's Baptist Church in Charlotte, N.C.; Miss Nelle Morton, general secretary of the Fellowship of Southern Churchmen; and Dr. Gabriel Nahas, representing the United Reformed Church of France (Calvinist).

A schedule of the meetings follows:

SEMINARS—Monday through Thursday, 4:00 p.m.

Race Equality—Charles M. Jones—Y. Young, Student Union.

Courtship—Claud Broach—Frazier Hall, 302.

Get Your Faith Straight—Mrs. Hastings—Music Room, SUB.

Dollars and Sense—Miss Morton—Room 128, SUB.

Your Character's Showing—Mr. Weisiger—Frazier Hall, 201.

One World?—Dr. Young, Dr. Nahas, Rabbi Ruslander—Frazier Hall, 204.

FUNDAMENTAL SERIES—Monday through Thursday, 5:00 p.m.

Music Room, SUB.

Monday: Rabbi Ruslander—Fundamentals of Judaism.

Tuesday: Bishop Mulloy—Fundamentals of the Catholic Faith.

Wednesday: Dr. Todd—Fundamentals of Christian Science.

Thursday: Rev. Jones—Fundamentals of Protestantism.

EVENING FORUMS: 7:30 p.m., Memorial Hall (MH) or University School (US).

Sunday: (MH) The Christian Challenge to World Confusion—Dr. Young.

Monday: (MH) Topic announced—Bishop Mulloy.

Tuesday: (MH) "Christian Radicals on the Campus"—Rev. Jones.

Wednesday: (US) "Need for Nobler Men in This Atomic Era"—Mr. Weisiger.

Thursday: (US) "To Be a Slave When"—Mrs. Hastings.

## No Negroes Have Applied Officials Say

University officials said Thursday that no application for admission has been made by Negroes although James A. Crumlin, president of the Louisville branch of the National Association for the Advancement of Colored Peoples, said that a Negro girl would seek admission to the College of Law.

President H. L. Donovan said he had "no comment" on press dispatches telling of the Negro student's plans to seek admission to the University.

Last week the Supreme Court ruled that Oklahoma must admit a Negro girl who seeks entrance to its state university law school or provide equal facilities for her.

According to press dispatches, Crumlin said he believed the provision of the Kentucky Constitution providing that "separate schools for white and colored children shall be maintained" would not bar Negroes seeking admission to professional or graduate schools.

Campus commentators pointed out that if application is made by Negroes it will probably be for the professional courses inasmuch as the state provides an accredited liberal arts college for Negroes.

Since the Court's decision, representatives of a number of southern states have discussed the possibility of establishing a regional university for all Negroes in the South. This institution would be supported by states taking part in establishing the university.

Dr. Donovan said that as far as he knew, Kentucky has not made any plans to take part in the regional university.

## Roland Gives Vets Report On Measure

Clayton Roland, who represented Kentucky at the National Conference of Veterans Trainees in Washington recently, spoke at a meeting of the Veterans Club Monday night.

Roland said that the Meade Bill, which passed the Senate last year, is now in committee in the House of Representatives. This bill, which had provided for \$75 a month for single men, and \$105 for married men, with \$15 for each additional child, is being amended to include the following provisions: \$100 for single veterans; \$125 for married men with undetermined amounts for each child; removal of the \$200 ceiling on earnings to \$300 for married veterans; and extension of the 4 year limit for professional students.

A second bill pending in the House committee, provides \$90 for single men and \$120 for married veterans, with additional amounts for each child. This is the Rogers Bill, (Continued on Page Two)

## Dr. Wall Has A Busy Life With Dorm Director's Duties

by Tom Diskin  
There's never a dull moment in the daily life of Dr. Bennett H. Wall, who, when not teaching his history classes, is kept busy as the director of the three University resident halls for men students. Frequently the combined duties keep him working from morning 'til late at night.

Two proctors and 14 monitors assist Dr. Wall in supervising some 430 men in Bradley, Kincaid and Breckinridge halls. When Bowman hall is completed, 108 more students will be added and Dr. Wall, the masculine version of "the old woman who lived in a shoe," will then direct about 538 men.

Living in the dormitories are students from many countries of the world. Among them are Turkey, China, India, Palestine, Cuba, Rhodesia, Puerto Rico and Greece—not to mention Brooklyn and Boston.

Many Duties  
For his boys, Doc Wall acts as an athletic director, gives advice to the male lovers, tutors worried history students, runs an information center, lends out many of his history books for the more studious residents, and occasionally operates an "escort" bureau for dateless men, and young ladies in distress, who call up the halls at the last minute seeking an eligible male for the evening.

Adjacent to Dr. B. H. Wall's office in Kincaid hall is the main information center for the trio of dorms. Here most of the incoming telephone calls for the students are received. This office is open daily from 8 a.m. until 10:30 p.m., and estimates are that the average number of calls received is somewhat over 200 per day, with about 300 on Fridays and Saturdays. Clerks have to hunt more than 100 persons daily to answer the phone.

The information center, operated by several students who work in shifts, takes messages over the phone and delivers them to the proper person's room. Invariably, it seems, the most popular students live on the top floor of the halls, according to the message runners.

Improvements  
In his two years as the director of the dorms, Dr. Wall has been largely responsible for many im-

## President's Welcome

Message from the President:

We of the University of Kentucky are indeed pleased that our campus has been selected by the Federal Council of Churches of America for co-operation in the observance of Religious Emphasis Week, January 24 to January 30. It is a pleasure to welcome the outstanding religious leaders who will be here as speakers for this occasion. It is our hope that the faculty and students will manifest their interest by their wholehearted participation.

H. L. DONOVAN,  
President

Dr. James S. McHargue

## New Process Used In Lab

The first steel ever cast from Kentucky iron ore by electric methods was recently produced in the Metallurgical laboratory of the College of Engineering, according to C. S. Crouse, head of the department of Mining and Metallurgical Engineering.

The ore, which came from Western Kentucky in a region near the Cumberland River, was cast in the electric furnace in the laboratory. Mr. Crouse said that "the steel was produced with the hope that metallurgists might develop an economical process by which to use Kentucky ore."

Metallurgists who cast the steel were James Wyatt, Carl Duncan, and C. S. Crouse.

## Ryland To Instruct Beginners At Bridge

Free bridge lessons, sponsored by the Student Union Activities Committee, will begin at 4 p.m. Thursday in the SUB, Frances White, committee chairman, has announced.

Dr. Hobart Ryland will teach the series, which is designed for beginning players.

Honors conferred on Dr. McHargue include the highest prize in a \$5000 award contest under the sponsorship of the American Society of Agronomy in Chicago, and an honorary degree of Doctor of Science from Clemson Agricultural College. He is the author and co-author of 120 publications dealing with research investigations on the minor elements in soils, plants, and animals.

Dr. McHargue is a member of the American Chemical Society, the American Association for the Advancement of Science, the American Society of Agronomy, the Royal Society of Arts, Phi Beta Kappa, Sigma Xi, Alpha Chi Sigma, the National Geographic Society, Kentucky Historical Society, and the Research Club of the University.

## Staff Member World Famous For Research

By Helen Henry

Dr. James S. McHargue, head of the department of research chemistry at the University Agricultural Experiment Station, whose change of occupation has been approved by the Board of Trustees, is perhaps the most widely known man to serve on the staff of the University. He is internationally famous for his research investigations in the role of minor elements in soils and in plant and animal life.

Dr. McHargue began his investigations more than 40 years ago while still a student at the University. He pioneered in research work on the importance of iodine, manganese, copper, zinc, cobalt, nickel, and other chemical elements in the growth of plants and the metabolism of animals.

A native of Laurel county, Dr. McHargue was graduated from the University in 1906 with a major in chemistry. In 1913 and the doctorate from Cornell University in 1921.

His extensive investigations and writings have brought Dr. McHargue recognition throughout the scientific world. An article in a scientific magazine, published in 1946, said: "Undoubtedly, the work that led to the finding, in Florida, Australia, England, and Holland, that deficiency of copper in the soil may seriously affect the health of livestock, was influenced directly or indirectly by the work of McHargue at the Kentucky Experiment Station."

He was the first American to determine the importance of copper in the health and growth of animals, according to other scientific journals. While scientists had long recognized the importance of nitrogen, phosphorus, calcium, and potassium, little attention had been given to the rare elements known to be present in small quantities in animal and plant tissue. Dr. McHargue proved that soils must contain sufficient quantities of such elements if plants and animals are to grow properly and maintain an adequate supply of enzymes, hormones, and vitamins.

## The Spice Of Life

By Amy Price and Helen Dorr

The KA's decision to secede from the Union in honor of Robert E. Lee's birthday sounds like something John (Joyland's pride) Irvin thought up. They even went so far as to send a letter to Secretary Marshall asking permission to withdraw from the Union for twenty-four hours in honor of the great day. We wonder, are they starting a Confederacy of their own?

When Cotton Wisner was tormenting Delt pledge Jim Brady by trying to get his date to pour water on him, Tinky turned the tables by pouring water in Cotton. Too bad he wasn't absorbent.

The unbelievable has happened. Jolly Rodgers is pinned. The lucky girl is Mary Anne Goodson.

Sig Ep pledges have a habit of taking the actives for a ride but the lowest blow of all happened last week when they kidnapped Crusty Christ as he and his date were waiting for a bus. The poor girl had to go home alone.

The most unusual gift of the week was the pennant Sally Branch got from a Yale man. It was inscribed, "For God, For Country, For Yale and for Sally."

Is it true that Tom Perkins and Elvye Mullinaux are planning to be married as soon as possible? By the way, Tom's edition of Readin', Ritin', Rhythm is getting better all the time.

Just to show the influence of the American press, Mary Sue McWhirter and Buddy Thurman were pinned as predicted in last week's column. The event happened Saturday afternoon.

In case you're wondering what happened to all the books the bookstore didn't have this quarter, we know of one solution. One girl was so impressed by some of the male help that she just kept on buying.

Jean Henry and Beta Jack Pogue from Miami University got pinned last weekend. They've been dating since high school days.

Jean's sister, Louise Henry, and Margaret Collier, student counselors in Jewell, say they don't have time

### Veteran Enrollment Shows Decrease

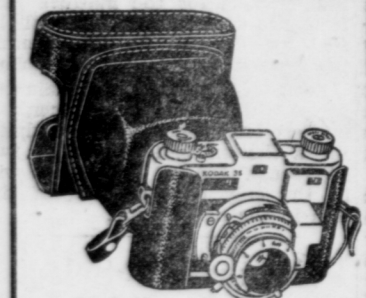

Of the 7294 students registered for the winter quarter, 4219 are veterans, Miss Maple Moors, assistant registrar, announced.

This figure, which excludes the 165 veterans enrolled in the College of Pharmacy, shows a decrease from the 4316 attending school under the GI Bill of Rights in the previous quarter.

The total veteran and non-veteran enrollment topped all previous records for the winter quarter, Miss Moors said. It surpassed the highest previous winter term enrollment by 747 students and is more than 96 per cent greater than the largest pre-war registration for a similar period in 1939.

Dr. Maurice F. Seay, dean and registrar, said the percentage of decrease in veteran enrollment was not as high as the normal decrease from the Fall quarter.

## Created Equal?

In 1938 Lloyd Gains, Negro, applied for admission into the University of Missouri and was refused. The matter was taken to court and was so bitterly contested that it finally made its way into the Supreme Court of the United States where the case was decided in favor of Gains and against the University of Missouri.

The decision was that "failure to afford equal educational advantages within the state for all citizens, regardless of race or color, constitutes discrimination in violation of the Constitution."

The decision was a victorious one in the fight of the American Negro for equal educational opportunities and spelled doom for the neglect of schools for Negro children, the lopsided division of state and federal education funds, and the payment of out-of-state tuition for qualified Negroes desiring graduate, professional, or technical education barred to them at home.

With only a few exceptions, the southern press agreed that the Supreme Court decision was just and that "something should be done." Just what should be done was a matter upon which none could decide but it was certain that out-of-state tuition payment was no longer a legal means of meeting the demands of Negroes for graduate and professional training.

December 7, 1941, and the entry of the United States into World War II provided a brief respite in the struggle but in 1945 the matter arose again, this time in Texas.

A Negro mail carrier, who had already obtained his bachelor's degree at a northern university, applied for entry into the law college of the University of Texas, basing his request upon an act passed by the state legislature in that same year. The act provided that the directors of Texas Agricultural and Mechanical College admit Negroes or provide equivalent courses, a ruling which applied to all state colleges.

Grover Sellers, attorney-general of Texas, ruled that a Negro was entitled to enter the University of Texas if he could not get the training he desired at a Negro college. Sellers further decided that as soon as there was a demand for any course offered white students, the Negro must be admitted or equal facilities be provided.

Last week the United States Supreme Court held that Oklahoma must admit a Negro girl who seeks admission to its state university law school or provide equal facilities for her. (Since that time, Oklahoma has avoided admitting her to the school by making the provision demanded by the Supreme Court.)

James A. Crumlin, president of the Louisville branch of the National Association for the Advancement of Colored People, also made a statement last week. He said that a Negro girl soon would apply for admission to the University of Kentucky law school.

Negroes have always been denied admission to southern colleges and universities and, in spite of two Supreme Court decisions on the matter, this application also probably will be contested as has been the case in the past when a Negro applied for the equal educational advantages guaranteed him by the Constitution.

But the real tragedy in the repeated attempts to bar the Negro from education lies even deeper than the fact that the majority attempts to deprive the minority of equal opportunities and rights.

The truth is that here we have men and women going to extreme lengths - educationally, financially, and socially - to uphold a principle that runs counter to the religion and the political philosophy in which they profess to believe.

Whatever develops affecting the University in the next few months, let students act calmly and reasonably on the issue - as befits university men and women. And if there be a handful of hotheads, who are more noisy than numerous, let no one be misled and let no one conduct himself in a way to bring discredit to himself, his university, and his commonwealth.

break the monotonous silence on his particular floor. Eventually he was discovered and shortly thereafter he was "exploded" right out of the resident halls.

Another "scholar" tried to practice his bugle "when the notion struck him" until his monitor informed him that the dorm was not the proper place to sound off and requested him to practice his reveille calls elsewhere.

Word Mastery:  
"Now, Miss," asked the dentist of the movie usherette, "which tooth is it giving you trouble?"  
"Second from the left in the balcony."

Joyce Faulkner: "She was all sugar and spice with a dill pickle for a tongue."

## Barker Voted ODK Head

George Barker, law junior from Lexington, was elected president of Nu Circle of Omicron Delta Kappa, national men's leadership honorary fraternity, at a meeting held in the SUB Tuesday night.

Other officers selected were vice president, William Toombs Jr., Louisville; secretary Edward T. Breathitt Jr., Hopkinsville; and treasurer, Dr. Dewey Steele, Lexington.

## Engineering Society Elects Brontson

William Brontson has been elected president of the Norwood Mining and Metallurgical Engineering Society.

Other officers are Fred Dupree, vice president; Ted Haley, secretary; Tom Ready, treasurer; Ben Whitmer, sergeant at arms; Ed Jones, student council representative; Mel Tinsley and Ken Barker, program committee.

## Dimes Effort

Under the chairmanship of Martin T. Swanson, the Alpha Phi Omega, National Service fraternity, has assisted in the effort to raise money for the 10th Annual March of Dimes campaign which began this week in Fayette County.

Bob Cox, Fayette county head of the Dimes Drive, stated that coin collectors have been placed in 15 different spots about the campus by the APO group, and that every fraternity and sorority on the campus will be solicited during the next two weeks.

## Editor's Letters

Editor, Kentucky Kernel:

The soldier was a "great guy" during the war to all the girls. He was the guy who was winning the war and protecting them from the enemy.

The war is over now and the veteran is being forgotten, just as he was forgotten after the last war. The dead are always forgotten, and the living soldier wants to be forgotten, as he himself tries to forget.

Then there is a third group; the boys who can't forget, because the mark of war has been branded on their minds and bodies. They should never be forgotten by those whom they fought to protect.

The government is doing all that it possibly can to help them recover physically at veteran's hospitals, like the one just outside Lexington. However, they need more than physical assistance; they need encouragement and inspiration. In this field, very little is being done for them by the ones who can aid them the most - the young womanhood of this country, whom they fought to protect.

Are there any girls in Lexington who would like to remember, and help broken soldiers to face the world again unafraid? If there are any who are interested, and can spare the time on Thursday nights, they can help out by going to the dances at the veteran's hospital.

These dances are supervised by the Recreation Department, and sponsored by local service organizations. They not only benefit those who can dance, but also those who come to watch with the hope that they too will dance again some day.

FRANK R. DORNHEIM

Editor's Note: Those who are interested can contact Pearl Baker, YWCA office, SUB, or the Red Cross office, VA hospital. Transportation is provided to the dances which take place each Thursday evening from 9-12 p.m.

## Kentucky Veterans Receive 404 Cars

Latest Veterans Administration figures show that 2323 seriously disabled World War II veterans in Ohio, Michigan, and Kentucky have received automotive vehicles at government expense under the law passed by Congress in August, 1946. Cost of the vehicles was \$3,692,652.

In Kentucky, 404 persons received vehicles, valued at \$642,124. The law provides an automobile or other conveyance, at a cost not to exceed \$1,600 for any World War II veteran who lost, or lost the use of, one or both legs at or above the ankle as the result of service-incurred injuries.

## Roland Gives

(Continued from Page One)

introduced by Edith Rogers, chairman of the House veterans committee.

When the Rogers Bill was presented on the floor of the House for insertion into the calendar, Rep. Robert F. Rich of Pennsylvania was the only member who voted against it, thereby tabling it.

Clayton Roland, who was present at that session, Thursday issued the following statement:  
"I urge all Pennsylvania veterans enrolled at the University to write Rep. Robert F. Rich, Pennsylvania, and express their disappointment in his objection to consider the Meade bill in the House of Representatives on December 19."

"Kentucky student veterans can aid much in the present attempt to obtain subsistence increases by writing each Kentucky congressman at once."

Senator Robert A. Taft, when approached by the veterans organization, promised that he would see the people responsible for passage of the bill, and promised action by Feb. 1, Roland said.

## Lydia Brown, KD's Win Room Contest

Rooms in Lydia Brown House and the Kappa Delta House won first place in the annual room judging contest, Miss Margaret Storey, director of residence halls announced.

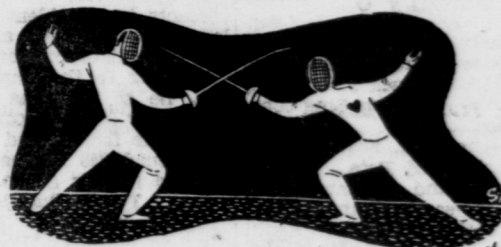

The House Presidents Council, the contest sponsor, awarded two cups, one for the dormitory-room winner and one for the best room in a sorority house. Second place among dormitories was won by Boyd Hall, with Jewell hall taking third place. Alpha Gamma Delta and Zeta Tau Alpha were second and third in the sorority competition.

## SUB To Sponsor Bridge Tourney

A "Beat-the-Snow" bridge tournament will be sponsored this quarter by the Student Union Board, Tom Underwood, chairman of the tournament committee, has announced.

All students are eligible, according to Underwood, but players must register to enter the contest in pairs. Application blanks must be obtained in the SUB card room before Thursday.

Players may arrange matches at their own convenience. An entrance fee of \$.25 per couple will be charged, but all money will be used to buy prizes.

(From the Sinclair Lewis Novel)

Shown above are two of the Kappa Alpha rebels as they lowered the Confederate flag at the retreat held in honor of Robert E. Lee's birthday Monday.

## Kappa Alpha Rebels Secede In Honor Of 'Patron Saint'

By Nancy Gaskin and Dudley Saunders

Two hundred staunch rebels stood in reverent silence as the Kappa Alpha fraternity lowered the Confederate flag in front of the Administration building Monday afternoon to conclude a day's celebration in honor of their "patron saint," General Robert E. Lee.

Sixty-five KA's took the day off from classes. They paraded in cars equipped with loud speakers and played "Dixie" during two parades which were formed to publicize the annual event and to salute all the local fraternities, sororities, and high schools. (The Sigma Chi fraternity reciprocated by singing "Happy Birthday" to the KA's.) One parade was interrupted by campus police, who said the noise was disturbing classes. The KA's, who pointed out that the parade was scheduled during the ten-minute interval while classes changed, said there must be a lot of "damnyankees" in Lexington.

A telegram to Secretary of State George C. Marshall, a KA himself, asked that the chapter here be allowed to secede from the Union January 19. Another message, sent to Lexington's Mayor Tom Mooney, requesting that the name of South Limestone Street be changed to "Robert E. Lee Boulevard" for the day. Both requests were unanswered.

The KA's were rather doubtful about the unusual idea put forth by Harry Rouse. Rouse suggested that the Confederate flag be flown on the flagpole in front of the Administration Building flanked by the members of the chapter in military formation. The plan was carried out, and at 7:30 Monday morning the Stars and Stripes were lowered and the flag of the CSA soared to the top. Until 8:30 the flag remained aloft. At that time Col. G. T. McKenzie, professor of military science and tactics and head of the ROTC, ordered the flag to be taken down.

The KA's immediately sent two representatives to explain the situation to Col. McKenzie and President H. L. Donovan. The KA's were then given permission to fly their halcyon flag under the Stars and Stripes for the rest of the day.

At 4 o'clock the KA's gathered once more on the "parade grounds" in front of the Administration building. There Bartley Greenwell, treasurer, blew "Retreat" and the Confederate banner was respectfully lowered.

For several days local radio stations broadcast up-to-the-minute accounts of the birthday celebrations on the campus. Tom Perkins, local disc jockey, dedicated "The Old Gray Mare" to Traveler, Lee's famous horse.

### Parking

(Continued from Page One)

those who are physically disabled, 201 permits were issued. This makes a total of 550 permits, but Dean Kirwan says the campus police explained that because all cars would not often be here at the same time, no problem would be created by issuance of 38 additional permits.

#### Explains

"I limited student permits to commuters and the physically handicapped. I felt it best to give commuters parking places because if they were forced to live in Lexington it would aggravate our housing problem. And I felt the physically handicapped should have parking permits. About 40 of this group are amputees," Dr. Kirwan said.

"Well, what are we going to do with the other persons who want to drive their automobiles to school?" he asks.

#### No Student Cars?

"Some of the committee members are in favor of not allowing students to drive automobiles on the campus," Dr. Kirwan says.

"Of course we wouldn't have any problem if those persons without permits wouldn't drive their cars to school," he points out. But he says this isn't the way it works and it is difficult for the University to prevent students without permits from parking on campus.

He points out that the costs of keeping policemen on duty at each of the five campus entrances or at the nine parking areas makes this plan prohibitive.

#### Cooperation

And it would create traffic jams as police checked permits or questioned persons supposedly only wanting to drive on campus to deliver students to the various buildings and then drive on away from the campus.

"We would like to have the student's cooperation in this matter," he says, explaining that during registration every student who has an automobile is given a copy of the parking regulations and asked to register his car.

About 1500 students registered their cars, but "the smart boys don't."

"And what happens?" he asks. "Students with unregistered cars park on the campus. The police tag them and then we check through the county clerk and finally catch up with the guilty person."

#### \$1 Fines

Persons who are reported for illegal parking are fined one dollar. "This isn't so much a punishment as an effort to impress on students that they shouldn't park without a permit," Dr. Kirwan says, "but a dollar is a dollar and the \$831 we collected last fall is an awful lot to tax students."

"We'd like to get away from this matter of fines and the \$1 charge for parking permits. That \$1 charge for two-quarter permits was probably intended to discourage students from applying for permits, but it's a failure," he points out.

Dean Kirwan asked 25 other universities how they handled their parking. Some issue permits on the same basis as the University, to forbid students to drive automobiles

at 7 p.m., Tuesday, Barker Hall. CWENS... will meet at 5 p.m. on Thursday, SUB.

on the campus, and some have the city police regulate parking.

#### Plastered Windshields

At the University of Michigan the penalty is severe. When a policeman finds a car without a permit, he pastes a sheet of heavy dark paper over the windshield.

"Sounds fine and would be if the offender was always a husky freshman who lives on Woodland Avenue," Dean Kirwan says. But he asks if this would be a nice way to treat parents of students visiting the University, or the many other persons who visit the campus for business reasons.

#### Committee

Members of the committee, appointed by President H. L. Donovan

### President's Office Requests Record

The President's office wishes to have a record of the children of students who are enrolled in the University of Kentucky. Dr. H. L. Donovan announced this week.

"We have on file a list of those children whose parents enrolled at the beginning of the Fall quarter and those whose parents enrolled for the first time at the beginning of the Winter quarter. We do not have the names of those married students who have attended the University before and who have just returned to take up their work in the Winter quarter," he said.

Those married students who are returning to resume their work in the Winter quarter after an absence from the campus are requested to call at the Office of Information, Room 107, Administration building and leave their Lexington or commuting addresses. If they have children a card will be furnished on which their names and dates of birth can be given.

## ALUMNI NEWS

## THEN and NOW

### PERSONALITIES

Dr. A. Dudley who received his M. A. here in 1939 was one of several collaborators in writing a text book now in use at the University. The book "Case Histories in Clinical and Abnormal Psychology" is the product of a number of writers, each expert in the type of case offered.

Two of the chapters on mental deficiency were written by Dr. Roberts who at that time was associated with the training school at Lapeer, Mich. At present he is chief clinical psychologist at the Lexington V.A. Hospital where, among other duties, he supervises the field work of seventeen University students who are on the Veterans' Administration training program for clinical psychologists.

Eleanor M. Snedeker, '38, of Freeport, N. Y., is now in Geneva, N. Y., as director of foods for Hobart and William Smith Colleges. She has just recently become a life member of the Alumni Association. Her address is Comstock House.

Mr. and Mrs. Thomas Noe (Lillian Clark Rhea) both former students from Russellville, Ky., were visitors on the campus last week. Mr. Noe is a member of the State Legislature from Logan county.

Thomas A. Ballentine, '25, president of the Louisville Taxicab and Transfer Company, has been elected to the directorate of the Louisville Board of Trade.

J. M. "Blick" Smith, of Franklin, former University student and a staunch Wildcat backer, exhibited Kentucky football game films at the weekly meeting of the Franklin Rotary Club Thursday night. "Blick" is chairman of the Simpson County Wildcat Boosters' Club.

Andrew David Fritzlan '36, formerly of Wilmore, who has been serving as second secretary in the American Embassy at Tangiers, Morocco, has been transferred to the state department in Washington.

## Bridge Results Given

Dorothy Evans, social director of the Student Union, announced the results of the duplicate bridge tournament held Monday night in the SUB.

Winners of the North-South play-offs are A. Martin and S. Stewart. Victors in the East-West contest are S. P. Adams and W. B. McMullin. Another tournament will be held in the card room of the SUB at 7 p.m. on Feb. 2 to select the bridge team which will represent UK in the National Intercollegiate Tournament.

## Clark Speaks

Dr. Thomas D. Clark, noted authority on the history and customs of the South and head of the Department of History, was the principal guest speaker at the twenty-first Memorial Program on the campus of the University of Pittsburgh Tuesday. Dr. Clark's subject was "My Old Kentucky Home in Retrospect."

## Graham To Speak

Miss Mae Graham will speak at the annual conference on school library problems to be held at the library at 10 a.m. Saturday. The meeting will be followed by a luncheon for alumnae of the Department of Library Science.

Dean Daniel V. Terrell of the College of Engineering and Director of District 9 of the American Society of Civil Engineers, is attending a meeting of the Society in New York. Dean Terrell, who is the chairman of the Committee on Coordination of Professional Activities, will participate in discussions of civil engineering problems along with some 2500 other members of the 95-year-old society.

## Seay Visits Projects

Dr. Maurice P. Seay, dean of the University, will discuss health education at a meeting of the W. K. Kellogg Foundation in San Francisco Jan. 18-21.

As a member of the Foundation's Consultant Board, Dean Seay will also visit projects sponsored by the organization.

## Capurso Attends Meeting

Dr. Alexander Capurso, head of the Music Department, represented the University at the 23rd annual meeting of the National Association of Schools of Music held recently at the Hotel Statler, Boston, Mass. The Association is recognized by the American Council on Education as the only accrediting agency for schools of music in the United States. Its membership consists of more than one hundred and seventy of the foremost colleges, universities, and conservatories of music throughout the nation, including a select list of preparatory schools and junior colleges. The organization has been influential in improving musical standards during the past two decades.

## Wetzel in Minneapolis

Dr. Harold E. Wetzel, head of the University of Kentucky Department of Social Work, is representing the University at the annual meeting of the American Association of Schools and Departments of Social Work, which opened Wednesday in Minneapolis.

The University professor, scheduled to discuss under-graduate projects in social work, recently was appointed a member of the association's committee on pre-professional education for social work. Dr. Wetzel is expected to return to Lexington Sunday after the close of the convention Saturday.

## Seay Article Published

Dr. Maurice Seay, dean of the University of Kentucky, is the author of an article, "Community Resources Are Teaching Materials," published in the current issue of "The School Executive."

The same issue of the magazine salutes the Committee on Southern Regional Studies and Education of the American Council on Education, of which Dr. Seay is chairman.

## Hamilton House Tea Slated For Sunday

Hamilton House, women's residence house, will entertain with a tea in honor of the staff and faculty from 4 to 6 Sunday afternoon.

The receiving line will include Mrs. Robert Henry, housemother; Miss Hazel Jo Smith, president; Miss Martha Lee Ward, vice president; and Miss Nere Hatcher, manager. Misses Clara Newton and Katherine Greenwood will preside at the tea table. Miss Alice Word, social chairman, is in charge of arrangements.

Wall Street Journal: "A bathing beauty is a girl who has a lovely profile all the way down."

## Concerts Open With Soprano

Miss Frances Yeend, lyric soprano, will open the winter series of Sunday Afternoon Musicales with a concert in Memorial Hall at 4 p.m. Sunday. Dr. Alexander Capurso, head of the Music Department, announced Thursday.

The program will be the fifth in a series that annually brings outstanding visiting artists to the campus, and presents members of the music faculty and student groups in concert appearances. The Music Department of the University sponsors the programs.

Miss Yeend has been soprano soloist in three Berkshire Festival performances of Beethoven's Ninth Symphony in Boston, and performed as Micaela in the Columbia Concert's production of "Carmen." She has appeared on such radio programs as the NBC Symphony's "Serenade to America," and "Hour of Charm" in special work with the New York Philharmonic Orchestra, and with the Naumburg Orchestra in open air concerts at New York's Central Park.

The young soprano was born in Vancouver, Wash., and was educated in Portland, Ore. Her early career included appearances in concerts, local operas, oratorios and dramas throughout the Northwest.

The musicale will be open to the public. It will be broadcast by radio station WKLV.

## University Art Club To Show Four Films

The University Art Club will sponsor a showing of four films on abstract and surrealist art on Wednesday, according to President Leo Zimmerman.

The movies will be presented at 7:30 p.m. in Room 200 of the Biological Sciences Building. The public is invited.

Handicaps: "A serious impediment to marriage nowadays is the increasing difficulty of supporting the government and wife on one income." (Pen.)

## Vets Decide On Procedure

Nominations of officers for the Veterans' Club will be by petition. It was decided at a meeting of the club Monday night.

A complete slate of eight officers, including the president, executive vice president, vice president in charge of membership, vice president in charge of business, vice president in charge of publicity, treasurer, recording secretary, and corresponding secretary must be petitioned for and signed by at least ten people. The petitions must be turned to Dr. Lysle Croft in the personnel office, not later than February 10.

Elections will be by a voice vote of the club members on Feb. 16. The place of the meeting will be announced later.

A number of constitutional amendments were passed during the meeting, including one that provided for a streamlining of the administrative staff.

## Lassiter Heads Legal Fraternity

James M. Lassiter, Murray, was elected president of Phi Delta Phi legal fraternity at a meeting Wednesday night at the Lafayette hotel.

Other officers selected were George Barker, vice president-treasurer; John R. Gillespie, secretary; and James S. Chenault, historian.

## Deadline Extended

The deadline for registration of entries in the Kentucky High School Speech Festival has been extended through Jan. 31. Prof. Louis Clifton, director of the Extension Department, which annually sponsors the state speech meet, announced.

## TIPS ON TOGS

by  
Link

**STUMPED!**—Yep, I'm stumped —can't decide "which terrific buy to tell you value-wise people about first". Because I have sport shirts (by Van Heusen, Cisco and Rombro of California), dress shirts of all styles (Van Heusens), leather gloves, scarfs, sox and raincoats at the often wished for but seldom found 1/2 price — in fact — one lot of wool plaid shirts for \$3.95 — bargain, eh?

**SEEING DOUBLE** — (With no help from the brew department — I hasten to add) every man's fashion magazine, every shipment of suits and seven out of ten customers favor double breasted suits — so-o-o — being obliging folk, we ordered and received a large hunk of double breasted suits in a variety of patterns and materials. They, too, have been hung on the sales rack and sell at a price to please any one.

**MORALE LIFTERS** — That's what I have entitled the new bow tie and handkerchief sets that are brightening up — and I do mean "brightening up," our store and shelves — in solid colors of yellow — tobacco brown — green — maroon — chocolate brown—black. Give you eight to five you'll like them —

So long for now

## HALYARD'S SPORT SIDE SHOW

Featuring Today —

"Dr. Wall" Helps Dorms  
Get Out Of Red

In every major intramural sport for the past two years, there has been a strong team participating for the Men's Dorm. Sure we know that also a half dozen fraternities have consistently had teams in intramurals, and that's good, but it's to be expected.

A fraternity is a social organization in which is bred a keen competitive group spirit. It produces a strong feeling of brotherly love, and a great desire to beat the Chuga Luga Jug boys down the street.

Fraternities have treasuries from which to finance their sporting programs, or at least their strong group organization provides a big enough stick to successfully assess members to meet the bills.

On the first of these two points, the Men's Dorm can stand up with the frats. Because just like the frats, the boys in the Dorms, although they have a faster turnover of personnel than the Greeks, like to play for the exercise, enjoyment of participating, and greatest of all the thrill of winning.

But the matter of financing the project has always been and may always be a hard row to hoe for the Independents.

The Dorm has been managing to scrape by on the meager profits from its Coke machines. With the help of "Doc Wall" they have managed to keep even and have accumulated from \$300 to \$400 worth of equipment, some given them, but a good portion purchased with their fund.

This equipment is used by all residents of the halls as well as the barracks to limber up stiff joints. Whenever the sun comes through for a couple of consecutive hours, footballs, softballs, and baseballs begin whirling through the air around the Dorms, like a bunch of flying saucers.

However, when the Dorm began to slip into the red, something had to be done. The genial "Doc" and

the boys believe they have a solution — at least it's worth a try.

They have a couple of pretty fair outfits that like to play ball. So they have scheduled several games throughout the state and possibly even one or two outside the Kentucky borders, with other amateur squads that need money for equipment.

Already they have played two such contests, but only received traveling expenses for their efforts. Both games went into overtime periods before the "stray cats" dropped one or two point decisions.

As soon as the men get a little more experience under their belts, Doc Wall figures they'll be able to demand a larger share of the gate receipts to put into their slightly embarrassed coffers. The men don't receive any money for their play, and don't participate against semi-pro or pro teams, which would eliminate them from the amateur ranks.

"The teams we play are outfits just like us," the Doc said, "teams who like to play, and who can put on a good show for the audiences to get money for uniforms and other equipment."

If this plan works to get the team out of the red, all Doc Wall has to worry about then is a way to keep his players after they get good. Some sort of eligibility rule might be helpful whereby once a player has seen action for one team, he wouldn't be eligible to participate for any other organization until he has laid out a year.

It seems some of the frats with their grant-in-aid offers are rather hard to outbid.

**CORRECTION:** We acknowledge and thank the many readers who caught the mistake in last week's Side Show and told us about it. It was De Paul who beat Kentucky, 53-47, last season and not Temple. The Owls beat us two seasons ago, 53-45.

## Distance Men Start Track Practice Soon

The Lexington Trotting track, stamping ground for some of the fastest horses in the world, will be the practice site of Kentucky's distant runners, who, although not the fastest men in the world, will probably run with all the determination in the world. Track coach Don Cash Seaton announced that distant runners would be in practice either there or at nearby Picadome at 3:30 p.m. February 2.

At the same time Dr. Seaton repeated his plea for more men in every event, stating that berths were open for every one of them. He insisted that anyone with two legs and the desire to work would be given a chance even if as many as 100 prospects turned out.

If enough freshmen answer his call, a frosh schedule can probably be arranged. However, upperclassmen are also requested to try out, because all the frosh prospects will not be eligible for varsity duty this spring. The freshman team would be composed of those boys who entered school after July 1, 1947.

First meet of the coming spring is scheduled for March 27, when a squad will participate in the Indoor Purdue Relays at Lafayette, Indiana. A tentative schedule of eight to ten meets is now being drawn up for the varsity squad.

Distance men are requested to report to Dr. Seaton before February 2, to sign up and be given lockers and equipment.

All other track workouts will continue according to schedule. The sprinters, hurdlers and field men will work outdoors whenever the weather permits and indoors whenever the gym is available.

Dr. Seaton reported that the athletic department had responded magnificently in furnishing new equipment, including new hurdles. If it is at all possible, a tobacco warehouse will be obtained as soon as the local market is cleared, where the hurdlers and sprinters may work out.

Among those who have shown up well in the hurdles are "Shorty" Jamerson and Tony Dallas, while Johnny Melhaus, Dennis Rice and

## Kentucky's "Zip Kids" Meet Cincinnati; Trying For 59th Straight Home Win

By Tom Diskin

The Kentucky "Zip Kids" will be after their 59th consecutive win in Alumni gymnasium tomorrow night when they encounter the University of Cincinnati Bearcats—"the team that beat Utah."

In their first meeting of this season (December 13), the Tucky Tabbies had little trouble with Cincinnati, winning 67-31, in the Queen City's Music Hall before a capacity crowd of 5,000 persons.

Since that time, however, the UC cagers have improved somewhat and are expected to put up a stronger game against the Ruppmen than before. Coach John (Soko) Weithe's charges have been facing top-flight opposition and although their record isn't too impressive, the Ohio hoopers are a stronger-than-average aggregation as several of their games have since proven.

Early in the campaign, the Cincy basketweavers whipped a good Southern Methodist University (of Dallas), but lost three straight to Kentucky, Villanova College and North Carolina State—all powerhouses. The latter outfit got a real surprise from UC in their game, with the Southerners finally winning by a six-point margin after a real struggle.

The Bearcats then pulled the biggest surprise of the year as far as Southern Ohio cage fans are concerned, when they upset a favored Utah quintet, 56-49, on January 3. A few nights later, the Buckeyes blasted Wayne University (Detroit), 92-52, showing more latent power. Two weeks ago, the UC netters lost a heart-breaker to Valparaiso University (of Indiana) by one point.

Ralph Genito have shown promise in the sprints. Dopey Phelps, crack sprinter from last year's team, is expected to report shortly, as is John Chumley, freshman griddler, who is reportedly a good sprinter and hurdler.

As for the remainder of the small squad that has been working out since school started, it is too early to point out any outstanding individual in any event, but rather numerous boys who show promise, many of whom are freshmen.

Cincinnati is capable of playing excellent ball at times. Whether they will be hot tomorrow evening is the big question. At any rate, the Tobacco State sharpshooters will be heavily favored to capture the contest by a wide margin.

**Westerfeld Is Big Gun**

UC's captain and center, Bill Westerfeld, is the big gun in the Bearcat barrage. After scoring 354 points last season in 26 games, Big Bill was selected as All-Mid-American Conference center, which includes Miami (Ohio) and Bob Brown, the guy who tossed in 19 markers against UC on January 5. Westerfeld, who is a fine team man, scored 11 points against Utah, while holding All-American Vern Gardner to eight.

Cincinnati sportswriters were high in their praise of six-foot, six Westerfeld, after he held UC's star pivotman, Al Groza, to just six points in the initial meeting of the season between the teams. This is, by the way, the lowest number of points that Altitudinous Alex has been held to, for the entire season thus far.

Alvin Rubinstein, who was bottled up by UC's defense very well last December, is very fast and often

a deadly set shot. He is the smallest man on the team, being five-foot, eight, but scored 308 points last year in 26 games at the guard position.

Forward Ralph Richter is perhaps Cincinnati's most promising player. After being quite a sensation in amateur basketball ranks around Cincinnati last year, Coach Soko Weithe brought the lanky cager to the UC campus and it has proved a very smart move. In several games, the six-foot, four-inch Richter has been little short of superb. He scored 18 tallies in the UC-Utah game to lead both teams in individual scoring.

The Red and Black's other starting forward, Dick Dallmer, a six-foot-two, 198-pound hooper, is good on rebounds and is claimed to be a great one hand shot when he is "right." Rounding out the starting five is Bill Anderson, a 73-inch guard, who plays a cautious, steady game. Another guard, Alkie Richards, will see considerable action against UC. Richards is the Bearcats' speedy halfback who finished right behind Roger Stephens in scoring for the 1947 grid season.

The Kentucky Cats, making their

## UC Upset Dayton Tuesday

In their last game, Tuesday night, the UC quintet trimmed Dayton 61-43, in the Gem City. Dick Dallmer and reserve forward Chuck Clickner led the scoring with 15 points each.

Ralph Richter leads the Bearcats in team scoring with 131 markers.

## Round-Up

(Continued from Page Five)

but their young team just couldn't keep up the pace. Definitely one of the top four in the conference, the Bulldogs have an overall record of 11-3, and a two and three conference record. Tab Georgia for the future.

Mississippi State has played all five of its games within the conference, winning two and losing three. They split a two game series with Vanderbilt and Auburn, and should provide a good warm-up game for someone. Draw your own conclusion.

The Rebels from Ole Miss can boast of but one achievement this year: they got beat by the Oklahoma Aggies, 52-34. They have a season record of three wins and four losses, including one victory and three defeats in the conference. Georgia beat them 74-66.

Sporting a season record of four wins and four losses, Auburn's Plainsmen haven't done anything this year except stop Georgia's 11 game winning streak 52-41. In con-

ference play they have won three and lost three, breaking even in a two-game series with Mississippi State and Florida. Washington U. Kentucky's opponent for February 7, at Memphis, beat them 59-29, and Tulane rolled over them 70-27.
